architectures and applied their core principles.
- Developed skills in building and enhancing component functionality.

Education

2024-06

High School Diploma: Software Development

HSY-1 Vocational & Technical Anatolian High School - Bursa, Turkey

Projects

Siliconbrite.com

• Silicon Brite Technologies is a semiconductor company based in Santa Clara, California. While working at Prome Solutions, I designed and developed the company's website from scratch.
• Technologies used: Astro.js, React.js, Tailwind CSS and Typescript.

Bookstore (remix-bookstore.vercel.app)
• I'm exploring full-stack development using Remix.js by building an e-commerce bookstore site. The project is still a work in progress.
• Technologies used: Remix.js, MongoDB, Tailwind CSS and Typescript.
